

THE MAS MISSION

At Miami Ad School, our mission is to train the creative thinkers of the future before the future has happened; to engineer pop culture with creative insight and strategic thinking from a global perspective. Students learn to solve problems with whatever discipline, channel, skill or craft necessary, using new and emerging media as well as traditional media.

WHY STUDENTS CHOSE MAS

Our unique educational concept pairs realistic training (from practicing professionals), with hands-on experiences at leading agencies, brands, and game-changing organizations around the world.
